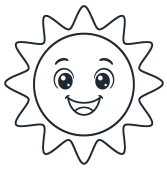
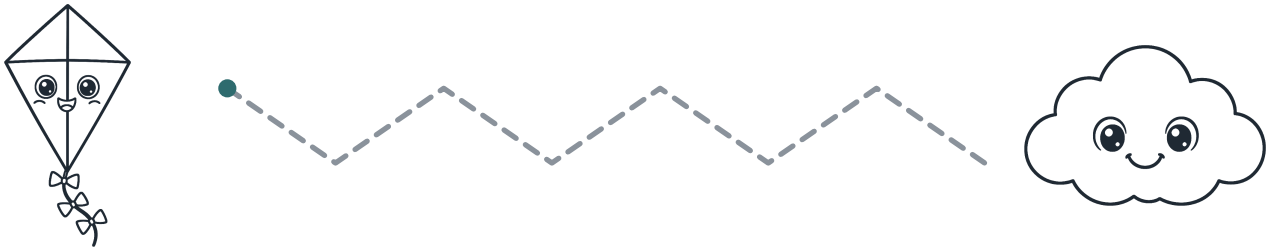
Summer Path Tracing

Start at the green dot. Trace the path with a pencil.

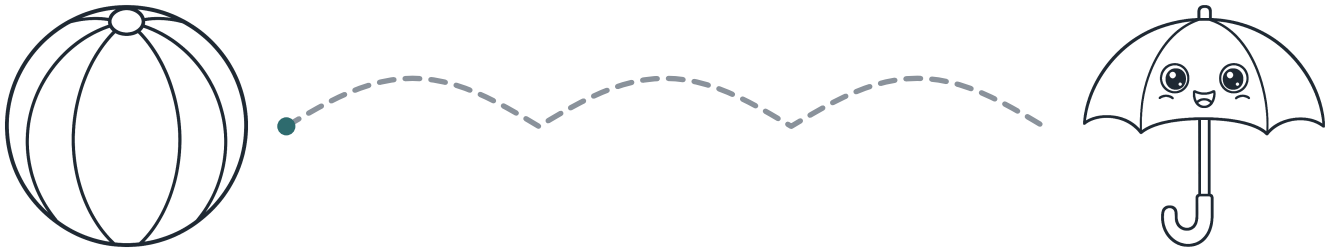


Help the fish find the boat.

Help the kite fly to the cloud.



Roll the ball to the umbrella.



Give the sun its sunglasses.

FOR TEACHERS & PARENTS

Skill: Pencil control and pre-writing strokes (waves, zigzags, bumps, loops).
Goal: Child traces each dashed path from the green start dot to the picture on the right.
Tip: Hold the pencil with a tripod grip. Slow and steady is better than rushing the path.
